Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE
FOLLOWING INFORMATION

- (d) Power to be developed is _____ horsepower.
(e) Place of use SE 1/4 NW 1/4 Section 4, Township 21 South, Range 61 East, M.D.B. & M/
Give location of place of use by legal subdivision
(f) Point of return of water to stream _____
Describe in same manner as point of diversion
(g) State number and kinds of animals to be watered _____
(h) Use will begin about Jan. 1 and end about Dec. 31, of each year.
Month Month
(i) Remarks This water will be used in conjunction with water under
permit No. 10986 (well)

DESCRIPTION OF PROPOSED WORKS

This well will be drilled to a depth of approximately 80 feet and will be cased and cemented to this depth.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works \$1000.00

6. Estimated time required to construct works 30 days

7. Remarks This is to be a refrigeration well. The supply well will be cased and cemented down approximately 80 feet and the return well, for which this permit is requested will be cased and cemented to the same depth. The water will be taken from the supply well and piped through the combination heating and cooling system and return to the source through the return well without consuming any of the water.

Victor V. Kunkel, Applicant.

RULING NO. By letter

APPROVAL

OF STATE ENGINEER

DATE Jan. 17, 1997

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and conditions: source. This permit is issued subject to all existing rights on the State Engineer pursuant to Sec. 4 of the 1939 Ground-Water Act (Chap. 178, Stat. 1939 as amended); therefore the State retains the right to regulate the use of the water herein granted at any and all times. It is understood that the use is non-consumptive and is for air-conditioning. It is further understood that the water be returned through a return well to the same aquifer from which it is obtained and the perforations in the return well be so constructed to meet this condition; that the system be a closed system so that no pollution can occur and that if there is faulty construction of the wells or system so as to cause pollution to the ground water, the State Engineer is empowered to cause the wells to be plugged.

The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 0.026

cubic foot per second.

Actual construction work shall begin on or before December 20, 1955

Proof of commencement of work shall be filed before January 20, 1956

Work must be prosecuted with reasonable diligence and be completed on or before December 20, 1956

Proof of completion of work shall be filed before January 20, 1957

Application of water to beneficial use shall be made on or before

December 20, 1957. Proof of the application of water to beneficial

use must be filed with State Engineer on or before January 20, 1958
